DETAILED ACTION

- This action is responsive to the following communication: an Amendment filed on 5/9/06.
- Claims 1-8, 13, 15-16, 21-23, 28-30, 33-39, 43-45, 47-63 have been canceled.
- Claims 18-20, 24-27, 31-33, 40-42, and 46 are cancelled due to species non-elected without traverse; see notes below for more details.

Response to Arguments

Applicant's arguments, see pages 9-11, filed 5/9/06, with respect to claims 9 & 17 have been fully considered and are persuasive. The 35 U.S.C. 102(b) prior art rejection as being anticipated by U.S. Patent No. 5909602 of claims 9 & 17 has been withdrawn.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 18-20, 24-27, 31-33, 40-42, and 46 directed to species non-elected without traverse. Accordingly, claims 18-20, 24-27, 31-33, 40-42, and 46 been cancelled.

Allowable Subject Matter

- Claims 9-12, 14, and 17 are allowable over prior art; renumbered as claims 1-6.
- The following is an examiner's statement of reasons for allowance: The cited prior art (US 5909602 to Nakai et al) of record teaches an apparatus for preventing duplication of confidential documents, but the prior art of record fails to teach and/or suggest the features of first receiving means for receiving, from an image generating apparatus having a forgery judging function, a result of judgment by the image generating apparatus having the forgery judging function, and second receiving means for receiving color image data from any of the image generating apparatus having the forgery judging function, wherein if the color image data is received from the image generating apparatus having the forgery judging function, the color image data is received after recdeicing the

result of judgment by the first receiving means *and in combinations of other features*" as cited in independent claims 9 & 17 (renumbered as 1 & 6 respectively). The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 9 & 17 (renumbered as 1 & 6 respectively).
